

ANWAR ALI

Full Stack MERN Developer | Frontend Developer

Noida, UP • +91 9557323174 • anwar955732@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 1.5 years of experience at Chetu India building responsive Single Page Applications, reusable React component libraries, and role-based dashboards for production environments. Delivered 3 end-to-end projects — a Real Estate platform, E-Learning system, and E-Commerce app — using React JS, TypeScript, Redux Toolkit, Tailwind CSS, and REST APIs. Certified in UI/UX Design and React JS development, with a proven track record of improving page load times by 30% and boosting user engagement by 35%.

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React JS, Redux Toolkit, React Router, React Hooks, Context API

Styling: Tailwind CSS, Bootstrap 5, Responsive Web Design, CSS Animations

API & Tools: REST APIs, Axios, Git, GitHub, Figma, VS Code, Vite, npm

Backend & Database (MERN): Node.js, Express.js, MongoDB, Mongoose, REST API Design, JWT Auth, Google OAuth 2.0

Methodologies: Agile/Scrum, UI/UX Design, Wireframing & Prototyping, Cross-browser Testing

PROFESSIONAL EXPERIENCE

Frontend Developer / UI/UX Developer

Mar 2025 – Present

Chetu India | Noida, Uttar Pradesh

- Built 15+ reusable React JS components and SPAs using React Hooks and Context API, cutting code duplication by 40%.
- Integrated 15+ REST API endpoints via Axios and Redux Toolkit, reducing data load time by 35%.
- Crafted mobile-first responsive interfaces with Tailwind CSS and Bootstrap 5, validated across 4 major browsers.
- Collaborated with UI/UX designers to convert Figma wireframes into pixel-perfect React components, boosting user engagement by 35% and reducing bounce rates by 20%.
- Accelerated page load performance by 30% through React Router code-splitting and lazy loading for 1,000+ monthly active users.

PROJECTS

Real Estate Web Application (2026)

Stack: React JS, Vite, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS, JWT Auth, Cloudinary, Socket.io

- Architected a full-stack real estate platform supporting 4 user roles (buyer, seller, agent, admin) with a clean React + Vite frontend and Redux Toolkit state management.
- Built a dynamic Navbar with hover-triggered dropdowns, mobile accordion nav, scroll-aware shadow, and role-based UserMenu using Tailwind CSS and Playfair Display / Outfit fonts.
- Integrated Google OAuth 2.0 on the frontend and Cloudinary-powered image uploads, cutting image load time by 40% for 500+ users.
- Implemented real-time chat using Socket.io client and a protected Post Property flow with role-based route guards.

E-Learning Platform (2025)

Stack: React JS, TypeScript, Redux Toolkit, Tailwind CSS, REST APIs, Stripe

- Built a TypeScript-powered React SPA with 3 role-based dashboards (student, instructor, admin) supporting 100+ courses.

- Developed a Student Dashboard with interactive quizzes, progress tracking, and course completion flows, reducing friction by 45%.
- Integrated Stripe.js payment UI for secure course purchases, achieving 99.9% transaction uptime.
- Leveraged Redux Toolkit for global state across auth, cart, and progress modules, eliminating prop drilling across 20+ components.

E-Commerce Web Application (2025)

Stack: *React JS, Redux Toolkit, React Router, Tailwind CSS, REST APIs*

- Delivered a fully responsive e-commerce SPA with cart, wishlist, and real-time order tracking for 500+ products.
- Built an Admin Panel with sales analytics and inventory dashboards using Recharts, reducing order processing time by 50%.
- Applied React lazy loading, memoization, and code-splitting via React Router to achieve sub-2-second load times.
- Implemented dynamic search, filter, and sort UI with debounced API calls, improving product discovery UX.

EDUCATION

B.Tech – Computer Science & Engineering

2019 – 2023

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

ACHIEVEMENTS

- Cleared Round 1 – Innovation India Coding Championship (IICC) by AICTE, recognized for algorithmic problem-solving.
